# How it Works

The CDR FoodLab® line analyzers are pre-calibrated, easy to use photometers that utilize pre-filled reagent kits and LED technology in order to simplify the testing process of many foods and beverages.

Download full user manual here:

**CDRFoodLab®**

**CDRFoodLab® Jr**

## Easy to Use

The analysis methods of the CDR FoodLab® are easier than the traditional, official methods, and can be performed in a few steps. Thanks to this design, the CDR FoodLab® is not only to be used in a laboratory, but also real time in the processing plant by staff with no previous lab experience. The analyzers feature touch screen technology and step-by-step directions through the testing process.

## Reliable

The CDR FoodLab® system and its calibrations, which are correlated to the standard methods, guarantees high sensitivity, a wide measuring range, and excellent repeatability of test results due to its photometric technology utilizing LEDs.

## Minimal Prep

Thanks to CDR's pre-filled reagent kits, there is no mixing of chemicals, cleaning of glassware, or exposure to highly toxic chemicals. The reagents come pre-filled and ready to use in specialized kits for each test.

## Reduced Testing Times

The CDR FoodLab® allows you to get accurate, reliable results within minutes.

## Stay Up to Date

The CDR FoodLab® utilizes state of the art technology and allows one to stay up-to-date with remote calibration checks, periodic software updates, the ability to store thousands of results, and export results to a computer.

# Analyzer Options

## CDRFoodLab®

### What's Included

- CDR Easy Pipettes (1-10uL, 20-25uL, 50-100uL)
- MiniPets (10uL, 30uL, 100uL)
- 1000uL/1mL Pipette
- Cuvette Holder
- USB Cord
- Power Cord
- Cover

CDR FoodLab® Top | PN: **222003Z01**

**\$7,940**

### INCLUDED ANALYSIS CONFIGURATIONS:

#### FATS & OILS

- Free Fatty Acid
- Peroxide Value
- p. Anisidine Value
- Soaps
- Iodine Value
- Total Polyphenols/OSI (on olive oil)

#### BAKERY PRODUCTS

- Free Fatty Acid
- Peroxide Value
- p. Anisidine Value
- Lactose
- Alcohol by Volume
- Alcohol by Volume on Preservative Solution

#### DAIRY

- Lactose
- L-Lactic Acid
- Milk Urea Nitrogen (MUN)
- Alkaline Phosphatase (ALP)
- Ammonia
- Chloride
- Hydrogen Peroxide
- E-Fructosyl-Lisine (furosine)
- Peroxidase

#### EGGS

- Lactic Acid
- D-3-Hydroxybutyric Acid
- Color (Beta-Carotene)
- Cholesterol

#### PUREES

- Chloride

# Analyzer Options

## CDRFoodLab® Jr

### What's Included

- Micropipettes
- Cuvette Holder
- USB Cord
- Power Cord
- AC Adapter

## CDR FoodLab® Junior Eggs | PN: 242004Z02

### CONFIGURATIONS:

- L-Lactic Acid
- D-3-Hydroxybutyric Acid
- Cholesterol
- Total Acidity

**\$4,800**

**+ Battery Option | \$400**

# Reagent Test Kits

The CDR reagent test kits are test specific. They come in pre-filled or bulk options and multiple quantity allotments to fit your needs.

## Storage

When you receive your reagents it is very important to pay attention to the designated storage conditions. Storage specifications are located on the front of the reagent kit pouch, along with the expiration date, lot number, and part number.

## SDS Documents

Find SDS's for your reagent kits on CDR's resource website:

# Warranty

CDR S.r.l. designs and manufactures its products in compliance with the quality management system under ISO 9001 standards, which envisage constant monitoring of the product through all the production stages.

## Warning

**OBLIGATION TO READ THE USER'S MANUAL:** at the time of delivery of the goods the final customer must read the user's manual, to avoid damages at the product.

## General Warranty Conditions:

- CDR declares to the original purchaser that each product manufactured and/or sold by CDR shall be free from defects in material workmanship and, under normal and proper use conditions, warrants it for a period of 12 months from the invoice date or 36 months if you have registered your analyzer. If you want to extend the warranty period to 36 months register your CDR Analysis System and upload a copy of your invoice.
- CDR's obligation is limited to repairing, replacing or modifying (at CDR's undisputed judgment) at CDR's factory - or elsewhere - the material whose defects have been verified, on condition that the Purchaser has informed CDR of any defects found within 8 days from receipt of the product or from discovery in case of defects which may not be identified in the normal inspection.
- Damages caused by or connected to transport are excluded. Transport to and from CDR's Factory will be at purchaser's charge and risk and shall be paid also for reshipment.
- This warranty certificate does not cover those parts which deteriorate or which are considered consumables or those parts or items which by their nature are normally required to be replaced periodically consistent with normal maintenance (including without limitation lamps, cuvettes and caps).
- Those instruments or accessories, which are supplied by CDR but are not of CDR manufacture will only benefit from the warranty conditions offered by the manufacturer.
- It's also understood that, following the purchase and delivery of the product, the purchaser shall be deemed liable for any losses, damages or complaints concerning persons or things incurred by the use or misuse of the instrument on behalf of the purchaser, his employees, co-operators or others.
- CDR does not assume any obligation or warranty engagement concerning precision and/or accuracy of the measurements as well as for any damage to the instrument directly or indirectly resulting from the use of reagents and/or consumables different from those produced by CDR specifically for its own instruments on the same properly tested.
- To activate the warranty is necessary to register your CDR Analysis System and upload a copy of your invoice.
